ABOUT ME

Hello! I am Beatriz García, full stack developer. Recently I have finished the full stack development certification at the Bottega University. I invite you to check my projects in GitHub. 🔗

My first approach to technology started when I built my first websites with WordPress. Then I designed and built an online shop with WooCommerce, which I have been managing for 5 years. Now I develop projects mainly with React, SASS, JavaScript, Python and Node.js. I'm always learning or improving my skills and open to hear opportunities.
